

# UNIQUE VITALITY PRODUCTS

## LIST OF PRODUCTS

Our Natural Products Contain No Starches, Sugars or Preservatives

### COLONIC RINSE

This capsule is a uniquely effective selection of natural herbal and mineral compounds that safely, thoroughly and gently prepare your gastrointestinal tract for optimum performance. Colonic Rinse has been used for over 25 years by leading medical doctors, nutritional doctors, colonic therapists, and is sold in health food stores for cleaning the intestinal lining and removing the excess mucous and toxins that have been deposited in our intestines over the years. The combination of Bentonite Powder, Psyllium Powder, Citrus Pectin, Wheat Grass Powder, Diatomaceous Earth, Black Walnut, Cascara Sagrada Powder, Golden Seal and other ingredients work together helping to alleviate arthritis, chronic fatigue, irritable bowel syndrome, stress, sleeplessness, constipation, heartburn, diarrhea, depression, migraine headaches and even bad complexions.

### LIV- RINSE

The liver is the largest and in some ways the most complex organ in the body. One of its major functions is to break down harmful substances absorbed from the intestines or manufactured elsewhere in the body then excrete them as harmless by-products into the bile or blood. The combination of L. Methionine, Inositol and Choline are key components in our formula, that help cleanse the liver of carbon radicals, stimulate balanced and energetic production of bile, break down fat and cholesterol, eliminate toxins and bacteria (which facilitates blood cleansing), stimulate the body's natural lecithin formation. The milk thistle helps to rebuild liver tissue.

### KIDNEY RINSE

By-products in the blood are filtered out by the kidneys and leave the body in our urine. This tablet assists in maintaining and repairing kidney tissues and stimulates red blood cell formation for added energy. The 18 ingredients including, Cranberry Powder, Cayenne, Kelp, Kidney Bean Powder, Lecithin, and Choline all work together to detoxify and revitalize the kidneys. Magnesium is included because of its ability to stimulate the production of enzymes needed to oxidize fats and metabolize purines (such as caffeine). Potassium Chloride was included in our tablet for its ability to work with sodium to regulate the body's water balance, help to dispose of body wastes and toxins and has been known to lower blood pressure. All 18 ingredients plus an ample supply of vitamins (A, C, E, B6, and B2) work in unison to detoxify and revitalize the kidneys.

### LACTO-BIFIDOUS PLUS

This capsule is the perfect compliment to our detoxification program. Lactobacillus Acidophilus and Lactobacillus Bifidous are the friendly bacteria in the intestines that help to maintain the overall well-being of the digestive system helping to increase the functioning of our bodies own immune system. Fructo-Oligosaccharides (FOS) is included in our formula to feed the "friendly bacteria" and probiotics (the study of friendly bacteria and its health-promoting effects) have found other benefits as well. The noted benefits of FOS include: improvement in liver function, reduction in serum cholesterol and blood pressure, and improved elimination of toxic compounds. Please keep the bottle refrigerated after opening).

## LIST OF PRODUCTS

Summary contin-

### **HYPO FORMULA #1**

Dr. G. Drew of the Fillmore Medical Center in California is currently using this tablet for his patients and has found improvements in "vitality and weight loss." Lipotropics along with vitamins and minerals (especially chromium) aid in glucose tolerance and carbohydrate metabolism. The lipotropics (choline, inositol, methionine and betaine) are substances that prevent an abnormal accumulation of fat in the liver, increase production of lecithin by the liver, which helps to keep cholesterol more soluble lessening deposits in blood vessels, and detoxify amines (when hydrogen atoms are replaced by radicals containing hydrogen and carbon) which are by-products of protein metabolism. Methionine seems to act as a catalyst for betaine, choline and inositol, speeding up their fat transporting ability. All the ingredients work together to greatly assist the body in maintaining a proper blood sugar level which has also proven beneficial for hypoglycemics, diabetics, recovering alcoholics, and people suffering from depression and mood swings.

### **VASCUSTREM**

This tablet was formulated by Dutch and Canadian medical doctors for their heart patients. It helps the body to cleanse arteries, increase the body's lecithin formation, and encourage the production of high density lipoproteins (know to reduce the risk of heart attacks). This superb combination of ingredients are formulated to create oral chelation (minerals are attached to a protein molecule that transports them to the bloodstream in order to enhance their absorption). The Chelating agents in this tablet are used to bind with heavy toxic metals such as cadmium, lead, and mercury, and to excrete them from the body. For over 40 years in the United States different forms of chelation have been used for the treatment of arteriosclerosis and have found beneficial results when used to treat cardiovascular disease, gangrene and other circulatory problems, myocardial infarction (heart attack), and metal toxicities, as well as many other ailments.

### **PRO ATHLETIC SUPER AMINO**

This capsule contains 24 pure pharmaceutical grade free form (most readily absorbed) amino acids. Amino acids are popularly called building blocks and are the chemical units that make up proteins. In the human body protein substances make up the muscles, ligaments, tendons, organs, glands, nails, hair, and bodily fluids (except for bile and urine). Proteins are essential for the growth of bones, enzymes, and hormones. It is easy to understand that amino acids are essential to good health. The liver produces 80% of the body's amino acids and the remaining 20% (called essential amino acids) must be obtained from outside sources. If the diet is improperly balanced and does not supply the proper amounts of essential amino acids, physical disorders will arise. For example L-Phenylalanine produces neurotransmitters and is used by the brain to manufacture norepinephrine aiding in memory and learning. Because of its action in the central nervous system, this amino acid elevates moods, enables the individual to overcome depression, and decreases the pain associated with migraines, menstruation, and arthritis. The other 23 amino acids included in our capsule are each instrumental in performing "essential" functions in our bodies. Lastly, amino acids have long been known for their ability to aid in the building of muscle tissue. Our amino acid capsules are currently being used by sports schools in Holland.

### **SUPER SUPREME C COMPLEX**

Not just another vitamin C tablet when you compare quality, quantity and price! This vitamin C (1000 MG) is combined with rose hips (also known as dog rose). The rose hip shells contain flavonoids, fruit acid, citric acid, pectins, and ascorbic acid. Some of its medicinal uses include colds, flu, digestive complaints, subacidic-stomach, infectious diseases and rheumatism and gout. Rutin (500 MG) is an important ingredient because of its ability to reduce capillary fragility by preventing breakdown of the inner cell wall of veins and arteries, thus improving the health of veins and arteries (helpful with circulation for diabetics). The Citrus Bioflavonoids (500 MG) have had impressive clinical results in the treatment of capillary permeability, easy
