

UNIQUE VITALITY PRODUCTS DETOXIFICATION SYSTEM

COLONIC RINSE, LIVER RINSE, KIDNEY RINSE & LACTO-BIFIDOUS

DO YOU NEED TO DETOXIFY?

YES! The average person has about 5-10 pounds of toxins in their system. “The problem of excess mucus toxins plagues about 60% of all patients;” says Dr. van Lamoen of the *Academy For Healing Arts*, the Netherlands. The old proverb “death is in the intestines,” is more true than ever. Chronic constipation in the intestines and an imbalance of fluids in the body, both caused by poor eating habits, bad foods, and excess stress, make our internal tract a poisonous region. This often causes “Auto Intoxification,” the constant release of toxins into the system. This injection of poisons causes a decrease in the functioning of the body’s natural **Immune System**. Many other problems have been linked to “Auto Intoxification” including:

- ~ **Arthritis**
- ~ **Chronic Fatigue**
- ~ **Irritable Bowel Syndrome***
- ~ **Bloating**
- ~ **Stress**
- ~ **Sleeplessness**
- ~ **Constipation**
- ~ **Heartburn**
- ~ **Diarrhea**
- ~ **Depression**
- ~ **Migraine Headaches**
- ~ some **Cancers**

Optimum health will only be achieved if you can absorb nutrients from the healthy food you eat and the vitamins you take. **Unique Vitality Products Detoxification System** combines a special selection, created by master herbalists, of natural herbal and mineral compounds that safely, thoroughly and gently prepare your digestive system, especially the gastrointestinal tract, for optimum performance. **Colonic Rinse, Liv-Rinse, Kidney Rinse and Lacto-Bifidous** are highly acclaimed by leading medical doctors, nutritional doctors and colonic therapists for the cleansing of the entire system. Dr. Rubio of Rosarita Hospital in San Ysidro, Ca, after administering our detoxification system to his patients viewed, their blood with a darkfield microscope and stated “We can see on a cellular level that your products are doing their job.” Once the mucus and disease causing toxins are eliminated, the whole body benefits. Satisfied customers have found benefits in many areas including:

- ~ more **Energy**
- ~ improved **Memory**
- ~ clearer **Skin**
- ~ alleviated **Chronic Fatigue Syndrome**
- ~ helped **Arthritis**
- ~ **Clarity**
- ~ **plus help in all the above mentioned areas!**

* Estimates suggest that approximately 15% of the population has suffered from Irritable Bowel Syndrome.

UNIQUE VITALITY PRODUCTS DETOXIFICATION SYSTEM

COLONIC RINSE, LIVER RINSE , KIDNEY RINSE & LACTO-BIFIDOUS

DOES IT WORK?

YES! That is why **Unique Vitality Products** is proud to offer you our detoxification program that leading medical doctors, nutritional doctors and health food stores have been endorsing for almost 30 years. In 1972, our president Pierre van Wessel (after 20 years in the health industry) created, with the help of master herbalists and chemists, our unique formulas.

All of our formulas are created to target specific areas and are made with ingredients gathered from all over the world. This combination of ingredients compliment each other in ways that get the job done! We believe it is for these reasons that Unique Vitality Products receives numerous testimonials from all over the world praising us for our products:

Norma J. Wilt of Nashville Tennessee wrote, "Several years ago I decided to become very concerned about my health and have tried numerous products. Never have I had such a product as your *COLONIC RINSE*. It is the finest on the market and the best. It has done wonders for my energy, thinking and over all health!"

Dr. Luc DeSchepper; author of "*Candida, the EPIDEMIC of This Country Solved*," believes that Colonic Rinse is a key factor in the elimination of toxins from the body and also helps his patients plagued by chronic constipation.

The Academy for Health Arts, the Netherlands, conducted a clinical study with a homeopathic doctor, a nutritional doctor, two medical doctors and a psychologist. Unique Vitality Products **Colonic Rinse, Liver Rinse** and **Kidney Rinse** were supplied to the patients during the course of the study. The following results were found:

"Toxicity was tested before and after one treatment with **CR, LR & KR**. In one patient the preliminary reading for the intestines was 64, after 1 use it was 54. The liver initially read 66 and then was reduced to 52. The Kidneys began at 82 and again was reduced to a lower level of 62. In conjunction with these results, many other counts went remarkably down. After the treatment the patient's energy was higher plus the intestinal tract was more tranquil. This was due to the near normal intestinal value, higher liver function, and higher kidney function." Their findings: "We really seem to have here a product with great effectiveness. The oral intake of these 'Rinses' effects the total digestive tract from the top to the bottom." We are proud to offer a complete copy of the doctors findings upon request. Additional affidavits are also available upon request.

Proof positive that our products work! Exactly how they work is what we will explain by highlighting some of the ingredients on the following page. While it is just a summary of our four detoxification products it will explain to you just why our formulas are truly unique and superior to what is

UNIQUE VITALITY PRODUCTS DETOXIFICATION SYSTEM

HOW DO OUR UNIQUE FORMULAS WORK?

COLONIC RINSE: Used for thoroughly cleansing the intestinal lining and eliminating excess mucous and toxins. This superb combination of natural herbal and mineral compounds safely and gently prepares your gastrointestinal tract for optimum performance. ***BENTONITE POWDER:*** A refined volcanic ash with potent absorptive and astringent properties. Toxic byproducts are collected by bentonite powder from the breakdown of bile salts and protein foods. Heavy metals such as lead, cadmium, and mercury, bond with the Bentonite and are eliminated, thus preventing their absorption and subsequent deposition in kidney, liver, brain and other tissues. ***BLACK WALNUT:*** Has Vermifuge, laxative and tonic listed as it's unproven effects in the *Physicians Desk Reference* for Herbal Medicines. ***CHARCOAL:*** Has been used for decades for purifying purposes. ***PECTIN:*** Heavy metals are the most notable toxins removed, and it is also beneficial for the internal healing of tissues. ***DIATOMACEOUS EARTH:*** When taken as a supplement, Diatomaceous Earth's pulling action absorbs heavy metals, chemical residues from agricultural fertilizers in foods, and health threatening rancid fats. It also penetrates the eggs of intestinal parasites killing and expelling them. ***CASCARA:*** Herbalists consider cascara a tonic to the colon, improving muscle tone and stimulating peristalsis. It stimulates evacuation to help assure the passage of wastes gathered by the other components. ***GOLDEN SEAL:*** Helps improve the condition of the intestinal lining. It soothes irritations, and may even hasten the closure of lesions that have begun to weep or bleed. These ingredients along with many other ingredients combine to make our Colonic Rinse truly unique!

LIVER RINSE: The combination in this tablet generates the balanced and energetic production of bile, which breaks down fat and assimilates fat soluble vitamins. ***L-METHIONINE:*** Is not synthesized in the body, and is an excellent source of sulfur which stimulates bile secretion in the liver and disinfects the blood while resisting bacteria. ***CHOLINE:*** Helps to eliminate toxins. Used for gallbladder regulation. Works with ***INOSITOL*** to dissolve fats and cholesterol. ***INOSITOL:*** Is important in the body's natural lecithin formation. ***MILK THISTLE:*** Is important for rebuilding the liver.

KIDNEY RINSE: Maintains and repairs kidney tissues and stimulates red blood cell formation for added energy. ***CRANBERRY POWDER:*** Acts as a natural cure for urinary tract infections, and stimulates healthy kidney functioning. ***KELP:*** Prime source of zinc which the body needs to maintain proper levels of vitamin E in the blood. Helps the pancreas, thyroid function, arteries, sensory nerves, membranes surrounding the brain, spinal cord, and brain tissue. ***MAGNESIUM:*** is included because it produces enzymes that help to break down (oxidize) fats. Potassium Chloride, Choline, Cayenne Powder, Aloe Vera Powder, and many other ingredients are combined to target the kidneys to cleanse and revitalize them.

LACTO-BIFIDOUS PLUS: The final step in our detoxification program, revitalizes the intestinal flora that is intimately involved in our nutritional status and affects immune system function, cholesterol metabolism, carcinogenesis, and aging. Due to the importance of ***L. ACIDOPHILUS*** and ***L. BIFIDOUS*** to human health, probiotic supplements can be used to promote overall good health. ***FRUCTO-OLIOGOSAACCHARIDES (FOS):*** Feeds the friendly bacteria. Other benefits noted with FOS supplementation: increased production of beneficial short-chain fatty acids like butyrate, improved liver function; reduction of serum cholesterol and blood pressure; and improved elimination of toxic compounds.
